# Government College of Engineering, Salem – 636 011

(An Autonomous Institution, Affiliated to Anna University, Chennai)

## Alumni Feedback Analysis Report

1. No of Aluminis provided Feedback: 177

2. Feedback Questions and options:

| S.No | Parameters  | Answer Options  |
|------|---|---|
| 1    | Able to apply the knowledge of basic sciences and engineering fundamentals to solve engineering problems.   | 5 is treated as maximum score for each question<br>1. Strongly Agree – 5<br>2. Agree – 4<br>3. Neutral – 3<br>4. Disagree – 2<br>5. Strongly Disagree – 1 |
| 2    | Able design & conduct experiments, analyse and interpret the resulting data to solve Engineering problems   |   |
| 3    | Ability to design a system or process to meet the desired needs within the realistic constrains such as economic environmental social ethical health care, safety manufacturability and sustainability. |   |
| 4    | Analyse the complex engineering problems and give solutions related to industries.  |   |
| 5    | Ability to use the techniques skill and modern engineering tools necessary for engineering practise.  |   |
| 6    | Has knowledge of contemporary issues relevant to professional engineering practise.   |   |
| 7    | Have gained board education necessary to understand the impact of engineering solutions in global economic environmental and social context.  |   |
| 8    | Ability to understand professional and ethical responsibility.  |   |
| 9    | Has ability to function on multidisciplinary teams  |   |
| 10   | Able to recognise the need engagement in research and to involve in long term learning  |   |
| 11   | Has ability to work as a leader in a team to manage projects in multidisciplinary environment.  |   |
| 12   | Have ability to communicate effectively   |   |
| 13   | To analyse, design and develop solutions for the real time problems and to apply the technical Knowledge for developing quality products for Industry.  |   |
| 14   | To adapt to emerging technologies and to develop innovative ideas and solutions.  |   |
| 15   | An ability to make use of acquired technical knowledge to get employed in the field of Engineering and also to become successful Entrepreneur   |   |
| 16   | The curriculum and syllabus content were appropriate for my placement / higher education  |   |
| 17   | Sufficient number of co-curricular activities were arranged during my study period  |   |
| 18   | The institute-industry tie ups were useful for me   |   |
| 19   | The institute / faculty helped me in placement/higher education   |   |
| 20   | The institute offers sufficient scholarships to merit students and deserving students   |   |
| 21   | The learning ambiance at the institute is good  |   |
| 22   | The institute provides sufficient opportunity to participate in extra-curricular activities   |   |

*Handwritten signature and date: 21/11/23*

|    |   |  |
|----|---|--|
| 23 | The curriculum accommodates courses with experimental learning (hands-on) |  |
| 24 | All the academic processes at the institute is transparent                |  |
| 25 | The institute is student-centric in all its academic initiatives          |  |

### 3. Feedback Questions and score:

| S.No | Parameters  | No of "Strongly agree" i.e. 5 | No of "Agree" i.e. 4 | No of "Neutral" i.e. 3 | No of "Disagree" i.e. 2 | No of "Strongly disagree" i.e. 1 | Weighted Average | %    |
|------|---|-------------------------------|----------------------|------------------------|-------------------------|----------------------------------|------------------|------|
| 1    | Able to apply the knowledge of basic sciences and engineering fundamentals to solve engineering problems.   | 48                            | 90                   | 29                     | 1                       | 9                                | 3.94             | 78.8 |
| 2    | Able design & conduct experiments, analyse and interpret the resulting data to solve Engineering problems   | 44                            | 81                   | 36                     | 3                       | 13                               | 3.79             | 75.8 |
| 3    | Ability to design a system or process to meet the desired needs within the realistic constrains such as economic environmental social ethical health care, safety manufacturability and sustainability. | 45                            | 79                   | 38                     | 6                       | 9                                | 3.82             | 76.4 |
| 4    | Analyse the complex engineering problems and give solutions related to industries.  | 42                            | 86                   | 31                     | 9                       | 9                                | 3.81             | 76.2 |
| 5    | Ability to use the techniques skill and modern engineering tools necessary for engineering practise.  | 44                            | 86                   | 32                     | 4                       | 11                               | 3.84             | 76.8 |
| 6    | Has knowledge of contemporary issues relevant to professional engineering practise.   | 42                            | 90                   | 33                     | 4                       | 8                                | 3.87             | 77.4 |
| 7    | Have gained board education necessary to understand the impact of engineering solutions in global economic environmental and social context.  | 40                            | 86                   | 37                     | 6                       | 8                                | 3.81             | 76.2 |
| 8    | Ability to understand professional and ethical responsibility.  | 53                            | 88                   | 24                     | 4                       | 8                                | 3.98             | 79.6 |
| 9    | Has ability to function on multidisciplinary teams  | 53                            | 95                   | 20                     | 1                       | 8                                | 4.04             | 80.8 |
| 10   | Able to recognise the need engagement in research and to involve in long term learning  | 49                            | 84                   | 31                     | 4                       | 9                                | 3.9              | 78   |

*Handwritten signature and date: 2/11/23*

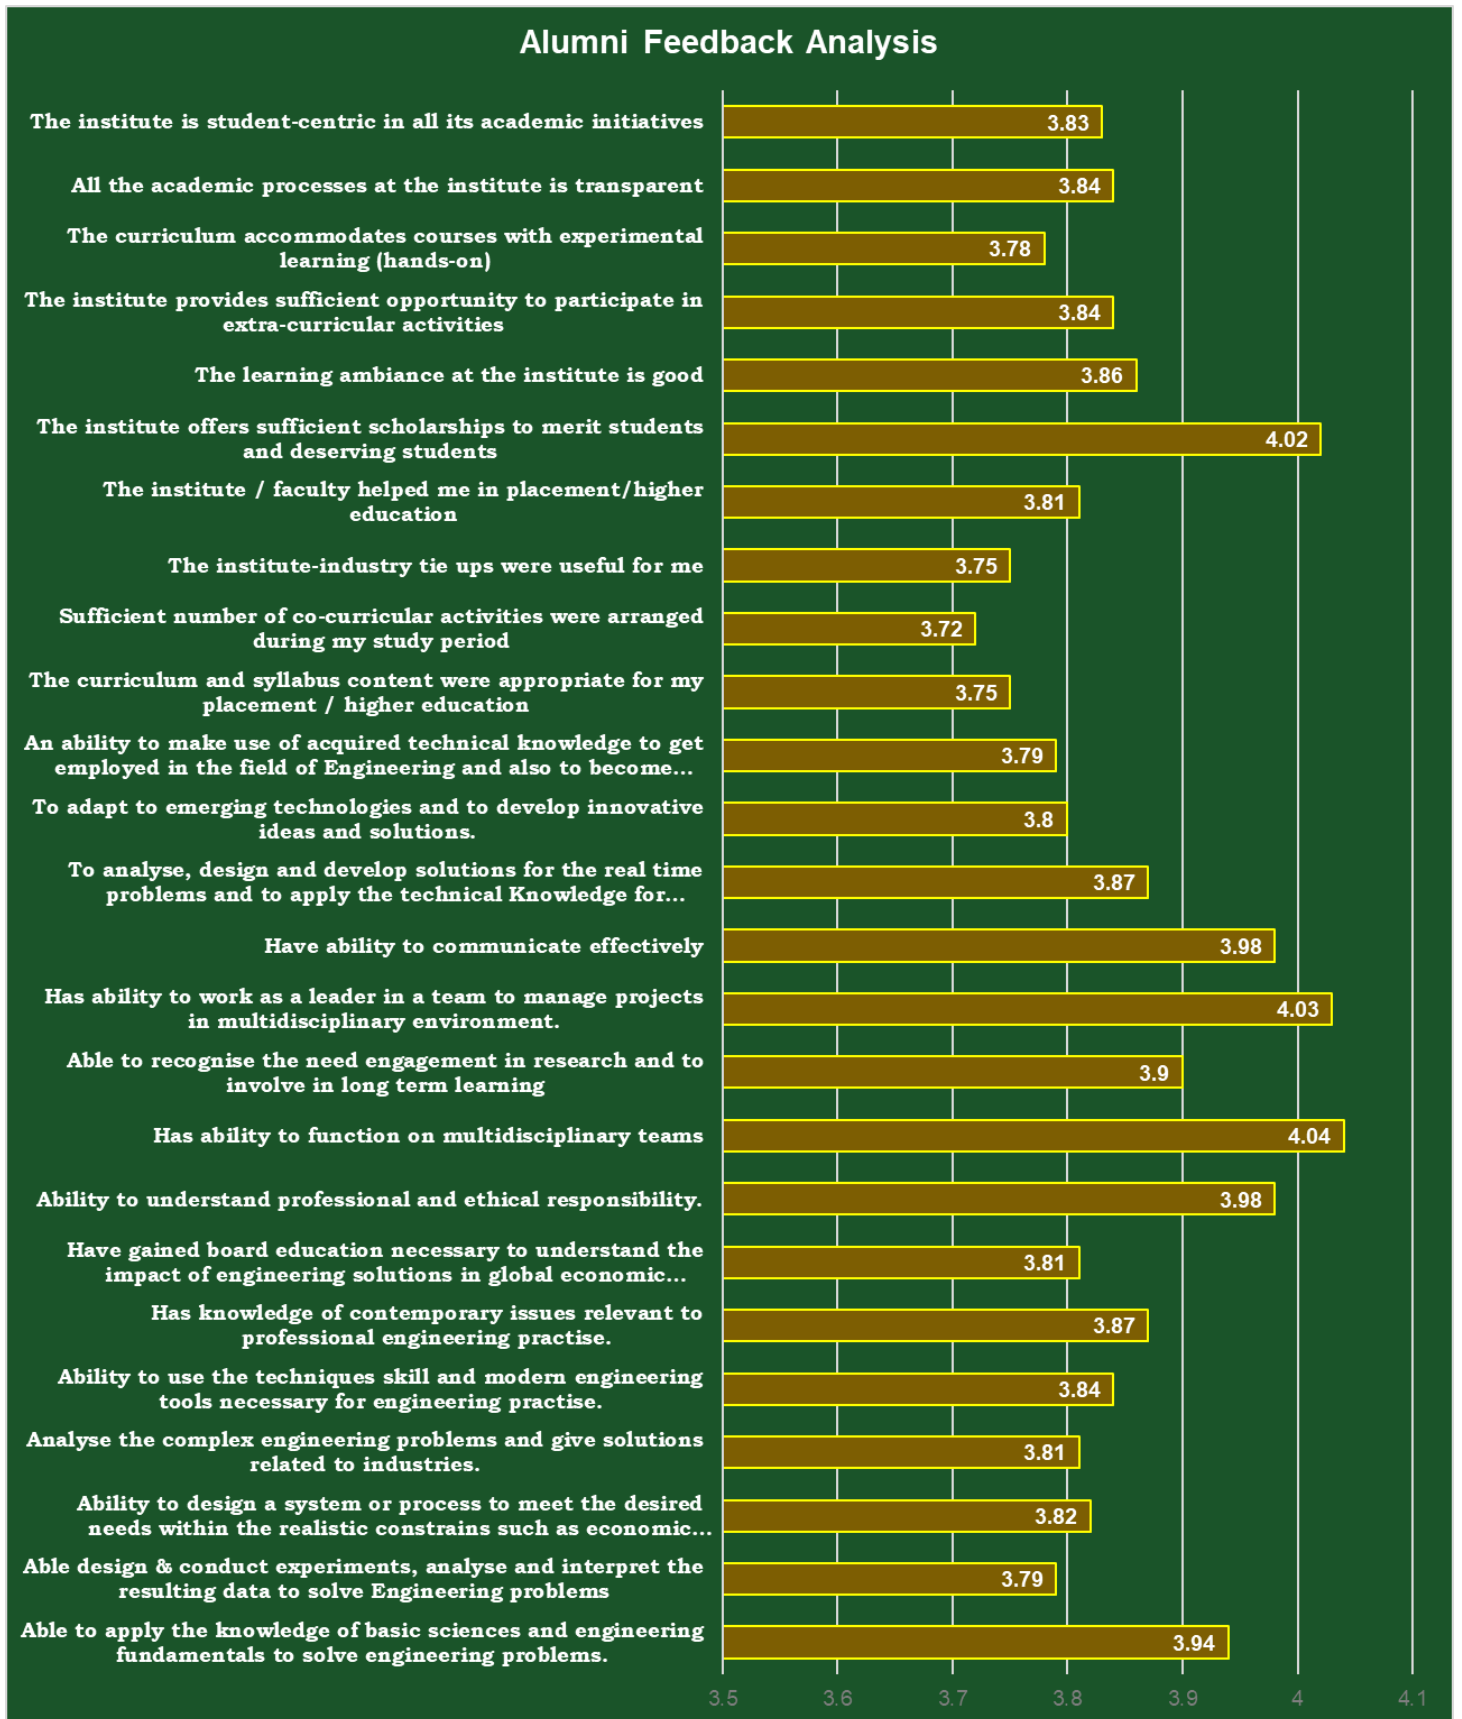

|    |  |    |    |    |    |    |      |      |
|----|--|----|----|----|----|----|------|------|
| 11 | Has ability to work as a leader in a team to manage projects in multidisciplinary environment.   | 60 | 83 | 22 | 4  | 8  | 4.03 | 80.6 |
| 12 | Have ability to communicate effectively  | 51 | 92 | 23 | 2  | 9  | 3.98 | 79.6 |

## 5. Question wise Analysis

1. Able to apply the knowledge of basic sciences and engineering fundamentals to solve engineering problems.

177 responses

2. Able design & conduct experiments, analyze and interpret the resulting data to solve Engineering problems

177 responses

3. Ability to design a system or process to meet the desired needs within the realistic constrains such as economic, environmental, social, ethical, hea...re, safety, manufacturability, and sustainability.

177 responses

6. Action Taken Report

| S.No | Suggestions based on responses from feedback   | Action Taken  |
|------|--|---|
| 1.   | Enhancement of co-curricular activities  | Will ensure that Co-curricular activities are sufficient and relevant, and take necessary steps if needed                   |
| 2.   | Reviewing the curriculum and syllabus to ensure that they are up-to-date and appropriate for the students' needs and industry standards. | Will be taken into considering while upgrading to next regulation of syllabus   |
| 3.   | Strengthening institute-industry ties to offer practical benefits to students.   | Signing MoUs will be encouraged. Internships will be encouraged. More industry-based lectures will be arranged.             |
| 4.   | Incorporating more experiential learning opportunities within the curriculum to better prepare students for real-world challenges.       | AR/VR lab has been already established and initiatives were on progress to create more experiential learning opportunities. |
| 5.   | Ensuring that the faculty and institute provide adequate support for student placements  | Institute is Student centric. Higher attention will be given to maintain the same.  |
