ABOUT THE INSTITUTION

Government College of Engineering, Salem was started during the third five year plan period in 1966 due to the dream and vision of many leaders like Shri. C. N. Annadurai, Shri. K.Kamaraj, and Shri. C. vijayaragavachariar and who sought to introduce technical education in Tamil Nadu. This is the third government engineering institution formed in Tamil Nadu. Since in inception, the college has striven incessantly to provide the quality education to engineers. It is located on a 162 hectares site surrounded by hills. The college is a regional research centre for Anna University Ph.D. and M.S., programmes.

This institution provides 6 Under Graduate Courses namely Mechanical Engineering, Civil Engineering, Electrical and Electronics Engineering, Electronics and Communication Engineering, Computer Science Engineering, Metallurgical Engineering and 5 Post - Graduate course namely Structural Engineering, Computer Aided Design, Thermal Engineering, Welding Technology and Power Electronics and Drives has accredited by National Board of Accreditation. The institution is selected for World Bank financial assistance under Technical Education Quality Improvement Programme (TEQIP) Phase I and II a total fund of Rs. 23 Crores.

ABOUT THE DEPARTMENT

Department of Mechanical Engineering takes pride in being one among the three disciplines of Engineering to function since the inception of GCE, SALEM.

The Department now enjoys the responsibility of double in - take through TNEA single window counselling, admitting 120 meritorious students with the purpose of preparing the students technically and technologically, cultivating in them the right balance of edification, creating an industrial exposure all the way. Two post-graduation courses, Thermal Engineering and CAD admits students who have passed TANCET or GATE with flying colours.

The Department having obtained the accreditation by NBA is fledged with 7 Ph.Ds. staff, 12 high prolific teaching faculties along with 31 non-teaching staff members who lay great emphasis on the core rudiments and principles, with tests premeditated in a way, where those fundamentals are reflected industrially. The brilliant state of the art facilities and advanced pristine lab equipment's also helps in creating an industrial oriented atmosphere. A reference centre is also furnished holding over 1500 reference books and 500 end semester project reports. It is equipped with Rapid Prototyping Machine, SEM, EDAX, Real time CNC Machines and Computer Assisted Diesel Testing Machines.

ABOUT THE PROGRAM

Neuro Linguistic Programming is about how the brain works, how people think, feel, learn, motivate themselves, interact with others, make choices and achieve realistic goals etc.

Benefits & Key Take Aways:

- 1) Eye accessing cues – Thought Process:
 - ✓ Understand structure of thoughts.
 - ✓ Powerful for deep understanding of subjects, analyzing, planning & visualization.
 - ✓ Powerful for memory.
 - ✓ Reduce / get away from unwanted or brooding thoughts.
 - ✓ Reduce / get away from unwanted emotions.
 - ✓ Useful for better understanding of others & better communicating.
- 2) Left / Right Brain Functions & Non Verbal Communication:
 - ✓ Becoming aware that non - verbally we communicate a lot from unconscious level.
 - ✓ Better understanding of self and others for better communication.
 - ✓ Useful in facing interviews
- 3) Quick New behaviour Generator Exercise:
 - ✓ Quickly change mind state to more resourceful like confident, relaxation, more joyful etc.
 - ✓ With regular practice can gradually improve the mind state to more resourceful states.
 - ✓ Quite useful to feel emotionally strong when face interviews.

GCE Salem Students

GEC Raipur Students

Webinar on “Campus to Corporate-Industry Readiness Programme” conducted on 31.10.2020 at 9.30AM under Placement & Training activities.

Mr.Rafiq Batcha, Alumni of 1997 Batch (ECE) delivered the speech for the final year students aspiring for the placement. The following are the inputs shared by the speaker to the students.

What is the interviewer looking for?

Beyond technical skills, this is what they are looking for:

- Can I put you on a project team? Do you work well with others?
- Are you willing to learn quickly?
- Are you able to think through, discuss and defend your ideas?
- Are you willing to go the extra mile?
- Are you really listening to me? Or just waiting for your turn to talk?

Chat: From MECH1751019 to Everyone
I am enough

Participants: Logavani K, Rafiq Batcha, Latha Uttam, Mec1751106

You have to be a complete package

Hard Skills

- General problem solving & logical thinking
- Engineering / technical knowledge
- Engineering/technical tools
- Programming languages
- Project management tools

Soft Skills

- Written communications
- Spoken communications
- Presentation and public speaking
- Relationship management
- Etiquette - polite, professional
- Learn to sell

Technologies change rapidly. Programming languages evolve. Skills.

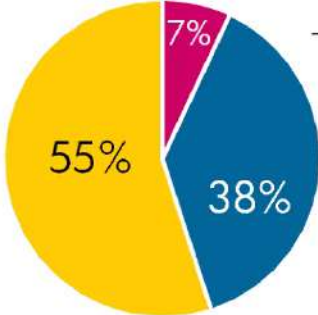

Chat: From CIV1811120 to Everyone
written, spoken, presentation skills.

The reality of human communications

Dr. Albert Mehrabian's 7-38-55% Rule

Elements of Personal Communication

- 7% spoken words
- 38% voice, tone
- 55% body language

“The non-verbal elements are particularly important for communicating feelings and attitude, especially when they are incongruent: if words and body language disagree, one tends to believe the body language.”

Your elevator pitch - “Why should I hire you?”

Have a 60 second response ready. Example:

“I believe you should hire me because of 3 main reasons:

- You need intelligent, hardworking consultants – and me being at GCE Salem on a merit seat indicates that I am intelligent and hardworking.
- I am a team player because I am on basketball team
- I am communicative as shown by my being communications leader for ECE dept symposium”

Write down your answer 10 times, practice in front of the mirror. Make it sound natural and not too practiced.

Looking into the future...

“In the coming age of automation and AI, careers will depend on being able to:

- Interact with people and use social intelligence*
- Be creative and come up with clever solutions*
- Work in unpredictable environments*

”

Your future success depends on you developing your soft skills while being technically fluent

Think like an entrepreneur

- Don't count on spending your entire career in one company
- Think like an entrepreneur
 - What does the market need?
 - Which market need do I want to serve?
- How to do market research to identify what skills are valuable?
 - Look at job postings on Naukri, LinkedIn etc. Look at Upwork.
- Prepare your Product (Yourself) accordingly (skills, work experience, degrees, certifications, life experiences etc)

Employability value: focus on developing a brand (reputation) so people are keen to refer you to others. Eg, ML expert in automotive industry.

Question – can you post some other such brands in the chat box?

Thinking

Inside the box thinking

FIRST ORDER THINKING

- Easy answers driven by our past experiences and beliefs
- Activated by system1 thinking which is intuitive and fast
- Immediate effect of our actions, ignores subsequent impact
- Confines us to get the same results as everyone else
- First order thinking is safe, superficial, reactionary, obvious, fast, easy and conventional

Outside the box thinking

SECOND ORDER THINKING

- Hard and looks beyond our current assumptions and beliefs
- Involves system2 thinking which is deliberate and logical
- Requires massive effort, potential impact of our decisions in future
- Separates great thinkers from the ordinary who outperform others
- Second order thinking is hard, complex, uncertain and unconventional

What Next?

Identify your Passion

- What makes you happy?
- What delights you?
- Where would you want to spend time, everyday?
- What will make you get up every morning?

Create your set of Values!

- For ever curious
- Will do good, and no evil
- Living for others
- Continue to push my limits
- etc

Be prepared for life!

- Opportunity knocks everyday!
- A loss and a win provides lessons
- How can you convince others? The value you bring to the table
- Communicate, introspect, communicate, repeatr

Build a Network!

- Of capable people,
- Of experts
- Of honest people
- Of people who will help you grow
