Based on the CO – PO attainment consolidation:

1. If CO is attained increase the target level for the next academic year. If it is not attained, then the target level may be revised or an area of additional focus can be identified.
2. Basic principles related to the problematic courses may be taught at the beginning of the particular topic.
3. Course content has to be organized and delivered in sequence.
4. If credit given to the course is not sufficient to complete the syllabus, then credits can be increased to 4 or obsolete topics can be removed if the same credit has to be maintained.

Based on students' feedback:

1. Offering extra classes for students (remedial classes).
2. Interactive Teaching - Encourage teachers to use more engaging methods like quizzes, hands-on activities, and tutoring activities for concepts with problem-solving.
3. Industrial Visits may be arranged.
4. For lateral entry students, classes for mathematics may be revised.

Feedback arrives based on Faculty, Alumni, Employer and Parents:

- Incorporate training modules in the curriculum to improve students' communication, teamwork, and leadership skills.
- Organize industry-specific workshops and seminars to provide students with insights into current industry trends and practices.
- Utilize the alumni network for mentorship and guidance, offering students firsthand industry experiences and advice.
